

CERTIFICATIONS

LEED Platinum

Fitwel 2 Stars

2024 ENERGY STAR label

ENERGY

- Electricity offset by renewable energy credits
- Capital upgrades implemented to reduce energy consumption and operating expenses
- Systems equipped with automated control systems
- LED lighting systems installed throughout building common areas to increase energy efficiency
- Real-time energy management platform (iES Mach) used by Paramount's Engineering Team to monitor energy use in 5-minute intervals and respond to building conditions promptly
- Building systems commissioned to ensure performance is optimized
- Ongoing staff training to ensure operations are efficient

HEALTH & SAFETY

- Janitorial staff conduct high frequency cleaning and sanitization using green cleaning products
- Construction materials used are LEED-compliant, recycled, responsibly sourced, and low-toxicity
- Training on emergency preparedness, workplace safety, and response drills coordinated periodically

AIR

- ActivePure air scrubbers installed, which have proven to reduce 99.99% of airborne contaminants
- Mechanical systems increase the supply of outdoor air and continuously cycle fresh, filtered air throughout the building
- Base building air quality is assured by WellStat, a monitoring system that provides real-time air quality levels that measure indicators including carbon dioxide, particulate matter, VOCs, temperature, humidity, and more
- Third-party indoor air quality surveys conducted to ensure the highest standards for HVAC hygiene, ventilation, and indoor environmental quality are upheld
- Building staff and contractors are required to use low VOC emitting products including solvents, carpets, adhesives, paints, and coatings to maintain optimal indoor air quality

WATER

- Existing toilets, urinals, faucets, and showers upgraded with low-flow fixtures, performing above code requirements for water conservation
- Real-time water usage meters monitored by Engineering Team to compare trends and identify potential water loss
- Cooling towers disinfected twice a year and testing for legionella bacteria conducted every 180 days

SUSTAINABLE TRANSPORTATION

- Bay Wheels bike share station located within 100 feet of the property entrance
- San Francisco Bay Ferry Terminals (500 feet)
 - Vallejo, Richmond, Oakland, Alameda, Pier 41, & Oracle Park
- Golden Gate Ferry Terminals (500 feet)
 - Larkspur, Tiburon, & Sausalito
- SFMTA Streetcar (100 feet)
 - F-Line
- SFMTA Light Rail (100 feet)
 - (J, K, T, L-OWL, M, N, & S Shuttle lines)
- SFMTA Muni Bus (100 feet)
 - 2, 6, 9, 9R, & 14
- BART Embarcadero Station (0.1 mile)
 - Red, Yellow, Blue, & Green
 - Airport trains: SF International & Oakland International
- Salesforce Transit Center (0.3 miles)
 - AC Transit, Greyhound, WestCAT Lynx, Golden Gate Transit, Muni Treasure Island, SamTrans, Amtrak, Capitol Corridor

ON-SITE AMENITIES

- Plaza dining
 - One Market Restaurant, STK Steakhouse, Café Elena, Osha Thai, Una Mas, Matko, Proper Food, Starbucks, Ladle & Leaf, Mixt Greens, Super Duper, Pressed, & Cuia
- Waterfront views
- Valet garage with EV charging stations and 80 available parking spots
- Rooftop beehive to promote biodiversity
- Complimentary bicycle storage area for all building tenants

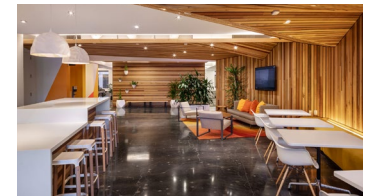

RECYCLING

- Single-stream recycling implemented where metal, glass, plastic, and paper are collected as a separate recycling stream to minimize waste sent to landfills
- Composting program facilitated to recycle organic waste, conserve landfill space needed for non-recyclable materials, provide nutrients for soil, and reduce greenhouse gas emissions
- Color-coordinated recycling procedure enforced to avoid contamination
- Periodic waste audits conducted to identify areas for waste diversion improvement and develop corrective action plans
- Double-barrel waste bins used by janitorial staff to ensure waste streams remain separated
- Janitorial staff trained annually to maintain recycling best practices
- Complimentary e-waste pick-up offered monthly to tenants to ensure materials are properly recycled

TENANT COLLABORATION

- Best practices shared with tenants to optimize sustainability through meetings, webinars, and information exchange
- Tenants engaged on energy efficiency opportunities to reduce consumption
- Pursuit of third-party designations, including LEED Commercial Interiors and ENERGY STAR Tenant Space, encouraged within tenant spaces
- Sustainability reporting of emissions, energy, water, and waste shared to support the independent targets tenants set corporately
- Energy savings opportunities within tenant spaces identified through incentive programs and engineering studies
- Recycling improvements identified and communicated to tenants through office walk throughs and waste audits
